## Concealed heating elements

In order to protect your fragile dishes, Baumatic have placed the heating element outside of the inner section of the dishwasher. This ensures that there can be no accidental contact between the items that you are washing and the heating element.

## Anti-flooding and anti-leakage

Baumatic have minimised the risk of leaks and flooding by equipping our dishwashers with a first-class protection system. This system will help to prevent the appliance from leaking in your home.

## Adjustable baskets

Our appliance designers have ensured that you can utilise the space inside your dishwasher as effectively as possible. This means you can stack more in and the basket system is flexible enough to suit the many types of dishes needing to be cleaned.

## Specifications

Dishwashers	Height (mm)	Width (mm)	Depth (mm)	Noise level	Water consumption	Energy Rating
BKDW45SS	850	450	580	53dB	13 litres	1.5
